

National Engineers Week  
Asian American Engineer of the Year Award  
21 February 2009, San Jose, California

On February 21, 2009, CIE/USA hosted the 2009 Asian American Engineer of the Year award (AAEOY) banquet. CIE/USA presented two special awards in 2009: Dr. Roger Tsien, the 2008 Nobel Prize winner in Chemistry and a professor at the University of California, San Diego received the Distinguished Science and Technology Award, and Dr. Jeong Kim, President of Alcatel-Lucent Bell Labs was awarded with the Distinguished Lifetime Achievement Award. CIE/USA also recognized 13 other visionaries for research and development projects in areas such as RF photonics, wireless communications, naval architecture, biochemical engineering and the environment.
