

## *2010 Asian American Engineers of the Year (AAEOY) Award*

Each year, the third week in February marks celebration of National Engineers Week across the United States to increase interest in engineering, to honor the engineering achievements and milestone and to help the next generation discover the rewards of our engineer profession. The vision of the Engineers Week Coalition is to be the global leader in cultivating and celebrating the engineering profession. The mission of the Engineers Week Coalition is to sustain and to grow a dynamic engineering profession. The celebration program of the National Engineers Week is described at the following website:

<http://www.eweek.org/Home.aspx>

As a part of [National Engineers Week](#) program, the [Chinese Institute of Engineers-USA \(CIE-USA\)](#) hosts the Asian American Engineer of Year (AAEOY) Award ceremony for corporate sponsors and professional societies to recognize and to honor outstanding Asian American engineers and scientists. In 2010, Chinese Institute of Engineers (CIE-USA) will proudly honor the recipients at the AAEOY Award on Saturday, February 27, 2010 at the [Hyatt Regency](#), New Brunswick, New Jersey. This AAEOY program is also announced in the National Engineers Week website listed above. Following tradition, the Award winners will also be announced through press releases during the National Engineers Week 2010.

We encourage your corporation to participate in this prestigious national event by contributing at one of the sponsorship levels and packages.

The AAEOY Award is the only program of its kind in the United States. It is a platform to recognize outstanding Asian American professionals for their personal achievements as well as significant contributions in academia, public service and corporate entities. Many of the recipients bring about monumental breakthroughs in science and technology, often with lasting and global impacts.

Previous award recipients include:

- Dr. Leo Esaki, the 1973 Nobel Prize winner in Physics
- Dr. Chang-Lin Tien, former chancellor of the University of California at Berkeley
- Dr. Samuel Ting, the 1976 Nobel Prize winner in Physics
- Dr. Steven Chu, 1997 Nobel Prize winner in Physics
- Dr. Yuan-Cheng Fung, Prof. Emeritus, Dept. of Bioengineering at University of California, San Diego
- Dr. Yuan Tseh Lee, 1986 Nobel Prize Winner in Chemistry
- Dr. Daniel Chee Tsui, 1998 Nobel Prize winner in Physics
- Dr. Albert Y.C. Yu, former Senior VP of Intel
- Dr. Roger Tsien, 2008 Nobel Prize winner in Chemistry

and many other [outstanding individuals](#) from corporate America who were presented to us by their corporate sponsors.

Besides the Distinguished Science and Technology Award and the Distinguished Life Time Achievement Award, 2010 AAEOY will present the following four AAEOY Awards:

- Asian American Most Promising Engineer of the Year Award
- Asian American Engineer of the Year Award
- Asian American Executive of the Year Award
- Asian American Entrepreneur of the Year Award

The 2010 AAEOY will be the ninth consecutive year that CIE/USA hosts this event. The award winners will be announced through press releases during the US National Engineers Week. The Ceremony and Banquet will be held afterwards in New Brunswick, New Jersey on Saturday, February 27<sup>th</sup>, 2010.

### **About CIE-USA**

The Chinese Institute of Engineers – USA (CIE-USA) is a professional, scientific and educational non-profit organization of Chinese-American engineers and scientists. The objective of CIE-USA is to promote communication among Chinese-American engineers and scientists who are interested in the well being of the Chinese-American engineering community in the U.S.A. Since 2002, CIE-USA has selected 125 Asian-American engineers as recipients of the annual AAEOY award as a part of the celebration of National Engineers Week.
